PROFESSIONAL SUMMARY

Computer Science Engineering student with hands-on experience in Java, Spring Boot, MySQL, and React through academic and project-based work. Focused on full-stack development with strong skills in RESTful APIs, database design, and authentication. Familiar with UI/UX design, test automation using Selenium WebDriver, and practical network simulation using Cisco Packet Tracer. A motivated team player seeking an internship to gain industry exposure and contribute meaningfully to development teams.

EDUCATION

B.E. Computer Science and Engineering — Sri Krishna College of Engineering and Technology, Coimbatore 2027 | CGPA: 8.3
Higher Secondary Certificate (HSC) — Amala Girls Higher Secondary School, Musiri 2023 | 90.3%

EXPERIENCE

Python with AI Intern — Litz Tech, Coimbatore *April 2025 – June 2025*

- Completed an internship focused on Python and AI application development, demonstrating high dedication, professionalism, and consistent attendance throughout the programme.

Computer Networks — Elective Course

- Completed an elective course in Computer Networks with hands-on network simulation using Cisco Packet Tracer — covering network creation, IP addressing, DNS configuration, and traffic management.

UI/UX Design Intern — Figma (Self-paced)

- Designed user-centric wireframes and interactive prototypes using Figma, building foundational skills in usability, layout hierarchy, and visual design consistency.

PROJECTS

Smart Attendance Management System

github.com/Hxrshini/attendance-main/tree/new-branch5 *March 2026 – Present*

Spring Boot · React.js · MySQL · QR Code · GPS · Face Recognition

- Built a full-stack smart attendance system using QR Code, GPS, and Face Recognition to eliminate proxy attendance with real-time blink and liveness detection.
- Designed an end-to-end OD approval workflow with multi-level authorisation (Student → Tutor → HOD) backed by JWT-secured Spring Boot REST APIs and role-based access control.
- Developed interactive React.js dashboards and automated daily, weekly, and monthly attendance reports with present/absent/OD status tracking.

Document Sharing System

<https://github.com/iamneo-production/8b1468ce-55e2-4174-9fba-e7fcc744dbe8-f811f6ce-5c2a-4589-85f1-01dc9c912503/tree/newbranchi> *July 2025 – August 2025*

Spring Boot · React.js · MySQL · REST APIs · MockMvc · JWT Authentication

- Independently architected and delivered a secure full-stack document sharing platform with controlled uploads, role-based access (Admin/User), and comprehensive CRUD operations.
- Implemented and validated Spring Boot REST APIs using MockMvc test suites; built a smooth React.js frontend for seamless document navigation and upload experience.

TECHNICAL SKILLS

Languages: Java, SQL, C++, Python, JavaScript

Web Development: HTML, CSS, React.js, Spring Boot, REST APIs, JWT Authentication, Spring Security

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Tools & Databases: MySQL, Git, GitHub, Selenium WebDriver, TestNG, ExtentReports, Figma, Cisco Packet Tracer

AI & Emerging Tech: NLP, Machine Learning, AWS Cloud, n8n, Make

Practices: Problem Solving, Team Collaboration, Manual & Automated Testing

CERTIFICATIONS & ACHIEVEMENTS

- Earned Elite Certifications from NPTEL in Cloud Computing, Effective Writing, Computer Networks, and Operating Systems.
- Completed 10+ courses on Coursera, including OOPs with Java, React JS, and UI/UX Design.
